RETURNING HEROES.

The Rifles and Zollinger Battery are Given a Royal Reception Upon Their Return From Evansville.

The Fort Wayne Rifles and the Zollinger Battery returned last evening, over the Pittsburg, from the Evansville encampment, where as has already been noted in these columns, they won for themselves the first honors in the competitive drill at that place. Preparations had been made to receive them in a royal manner and when the 7:40 o'clock passenger train whirled into the depot a grand ovation awaited and was given them.

Every foot of room almost in the vast depot space was crowded with their enthusiastic friends. The City band was there and a reception squadron, laden with fireworks, stood ready to make the night brilliant and the welcome a magnificent one. As the train with the returning heroes passed the Calhoun street crossing from the west enthusiastic shouts went up from the immense crowd, the band struck up a national air and the fireworks squadroon added their illuminations to the brilliancy of the occasion.

The march down Calhoun street was one continued ovation. The street on both sides was lined with people and from every side, brilliant fireworks rent the air, while voices were shouted hoarse all along the line of their march. The companies persued the line of march outlined in yesterday's SENTINEL, and drew up in front of their armory on Calhoun street, where with three cheers from the crowd for the Rifles and the Battery, they disbanded to receive the congratulations of hundreds for their laurels won and to recite the scenes and incidents of their camp life and their victories.

The boys speak in high terms of the treatment afforded them by the citizens of Evansville and report having had a delightful time during their ten day's encampment. The ovation tendered them last night is proof convincing that the city is proud of her handsome soldier boys. They have earned their laurels and let them wear them proudly, feeling that the citizens of Fort Wayne will ever remember the honor they have brought to her name by the victories won at the Evansville encampment.

TOOK TO THE WOODS

A Negro Politician in Arkansas, Guilty of Crooked Work, Leaves for Other Parts.

LITTLE ROCK, Aug. 29.—Race war is imminent at Wabbesco, Ark. The negroes have a township ticket there. It is a compromise ticket with whites and blacks divided and a straight democratic ticket. A negro politician named John Taylor is the cause of the trouble, the whites vowing that unless he desists from crooked practices there will be blood shed. Taylor has taken to the woods.

WASHINGTON.

Proceedings of Both Houses of Congress To-day.

WASHINGTON, Aug. 29.—Mr. Reagan introduced a bill to permit the importation of jute bagging free of duty. It was referred to the committee on finance. He spoke of "the trust," which had increased the price of jute bagging and said the cotton planters were discussing the question as to whether they would not withhold their cotton from the market until that oppression passed by.

HOUSE.

Mr. Forney, of Alabama, asked unanimous consent to introduce for immediate consideration a joint resolution to provide temporarily (until September 15) for the expenditures of the government. He explained that all appropriation bills had passed with the exception of the army and sundry civil bills and that the resolution only applied to those two objects.

A bill for printing government securities in the highest style of art was passed.

The speaker has appointed a new set of conferees on the part of the house for the second conference on the army appropriation bill. The original conferees were Messrs. Townshend, Maish and Laird and for the two last named the speaker has substituted Mersrs. Sayers and Butterworth, both members of the appropriation committee, who are strongly committed by their public speeches to the rejection of the senate amendments providing for the construction of a heavy ordinance, while the members displaced have favored the amendments in the conference. The report was rejected by the house.

The fortifications appropriation bill reported by Senator Plumb this morning from the committee on appropriations, differs in material respects from the bill as it came from the house. The appropriations carried by the bill are increased from $3,625,000 to $5,322,00 and there is further provisions under which $6,000,000 additional may be expended at a rate not exceeding $2,000,000 per annum for the purchase of guns.

Mr. Washington, of Tennessee, called up the bill to increase the efficiency of the medical division, declaring that it was difficult to obtain the best medical talent on account of the smallness of the salaries.

The first shipment of the standard silver dollar for storage in the large new treasury vault was received at the department this morning.

It came from Philadelphia by express and amounted to $500,000. These shipments in lots of $500,000 will continue daily for about six months until they aggregate $100,000,000, the capacity of the vault.

AFTER DEATH.

Important Developments Brought Forth by a Coroner's Inquest.

GOSHEN, Ind., Aug. 29.—The death of Mrs. Allen Zollinger, of this city, last Sunday, has brought forth some important facts.

The inquest held by Coroner Johnson resulted in the decision that the deceased had come to her death from peritonistis following a miscarriage produced by Miss Luella Day, a doctress of this city.

Public sentiment is strongly against Dr. Day, and it is increased by the assertion that just before death Mrs. Zollinger said to her husband: "Dr. Day lied to me, Allen, and killed me to get the $10."

Mrs. Zollinger was the only daughter of a wealthy farmer of this county and leaves a family of three children.

New York Republicans.

SARATOGA, N. Y., Aug. 29.—The republican state convention, held here yesterday, nominated the following ticket: Governor, Warren Miller; lieutenant governor, S. V. R. Crueger; judge of Appeals, Judge Rumsey. The platform commends the rejection of the fisheries treaty and approves of the republican national platform.

Frank Higbee, the boot black, was before Esquire Ryan to-day. It was surmised that he emptied the cash drawer at Rehmen's saloon last night, but the proof was not positive so he was given ten hours to get out of town.

THREE KILLED.

Two Freight Trains Collide on a Virginia Railroad—Three Killed and Two Injured.

STANTON, Va. Aug. 29.—A collision between two freight trains on the Chesapeake and Ohio railroad this morning near Clifton Forge, resulted in the death of two brakemen and one engineer. Joseph Newman, of Augusta county and another engineer, Fayette Weaver, of Rockingham county, were seriously injured.

GEN. BEN'S ARRANGEMENTS.

Preparing To Hold a Public Reception at Put-in-Bay.

TOLEDO, Ohio, Aug. 29.—A Middle Bass special says: Ex-Gov. Foster has perfected arrangements for a public reception to Gen. Harrison at Put-in-Bay on Friday next. Excursions will be run from Cleveland, Sandusky, Detroit, Toledo and other like towns and all the people in this section will be invited to come to meet Gen. Harrison at Put-in-Bay next Friday afternoon.

He says that it is probable that there will be no speaking and no regular program, but hand-shaking and a general good time Friday afternoon. A committee from Toledo visited Gen. Harrison yesterday to invite him to attend a monster two day's mass meeting at Fort Meigs, on the Maumee, ten miles above Toledo. The general promised to take the matter into consideration and says if he accepts any invitations outside of Indiana he will go to Fort Meigs on account of the historical association.

Must Take Freight.

NEW ORLEANS, La., Aug. 29.—Judge Pardee has ordered Receiver Brown, of the Texas Pacific road, to accept freight for Texes points offered by the Queen and Crescent route. The freight had been refused because the Queen and Crescent road had declined to change its tariff in accordance with the resolution of the Texas Tariff association, therefore, the Queen and Crescent applied to the United States court with the above result.

A CASHIER'S CUT.

He is Short in His Accounts and Cuts His Throat, From Which He Dies in Fifty Minutes.

HARTFORD, Conn., Aug. 29.—Joseph Breed, cashier of Hartford National bank, committed suicide, at 8:40 o'clock, this morning, in the bank building by cutting his throat. He died at 9:30 o'clock.

Mr Breed was trustee on three estates and it is rumored his accounts were, or had been, short on all these. The officers of the bank say his accounts there are all right. He has had a good reputation and apparently has not been living beyond his income.

NEW BONDS DELAYED.

The Pittsburg and Fort Wayne Road is Watching the Pennsylvania People.

Three months ago, after considerable discussion between the bondholders and directors of the Pittsburg, Fort Wayne and Chicago road, it was decided to issue improvement bonds in the future to the Pennsylvania railroad company, which leases the line, to reimburse it for the money expended in betterments, extensions, etc., on the leased road. The Fort Wayne had previously issued stock for this purpose, but to save considerable of an annual charge, as well as to make it impossible that the Pennsylvania should acquire control of the road through ownership of a majority of the stock, it was decided to make payments in bonds. The first lot of bonds, in part to make return for work already done, was to be $1,000,000; and it was expected that they would be issued at once. Inquiry discloses that these bonds have not been issued as yet. The form of the bond has been prepared, and all requisite action on the part of the Fort Wayne has been taken. From one of the directors it learned that the delay is owing to the failure of the Pennsylvania railroad to take action as yet upon the Fort Wayne's proposition. It has been hinted that the Pennsylvania board is opposed to the change of plan. The above authority, however, says that he is assured that President Roberts, of the Pennsylvania, favors it, and that action will be taken accepting the terms proposed in due course.

MIKE COLLINS.

A Fort Wayne Youth in Serious Trouble.

Yesterday, Marshal Frank Supple, of Columbia City, came to town in search of Mike Collins, a Baker street lad, who is wanted out there for burglary.

It seems that Collins and one Carter entered a house of ill fame out there and captured a gold watch, pair of bracelets and some other valuables. They were detected and Collins, to escape arrest, leaped from the second-story window with his ill gotten goods.

Both young fellows belong to the Downey gang and Marshal Meyer and Officer O'Ryan are to be credited with the capture of Collins. They delivered him over to Marshal Supple.

THE EIGHTY-EIGHTH.

The Gallant Old Veterans Assembled for Reunion.

The survivors of the Eighty-eighth Indiana regiment are assembled at the fair grounds in annual reunion as we go to press. This morning some seventy-five visitors came to the city from surrounding towns and were received at the G. A. R. hall in the MacDougal block.

The old heroes are always welcome to Fort Wayne, and THE SENTINEL is glad to see them continue to cherish, in a patriotic way, the friendships of the war.

The feature of the tournament yesterday was the live bird match and was participated in by a number of fine shots. The first money in the match was won by Mr. C. H. Miller and the second by Martin H. Mergel, both of this city.

TO THE BASS EMPLOYES.

Are You Incendiaries and Did You Threaten to Burn the Bass Works Down?

THE SENTINEL says that Mr. Bass' men will testify that he did not import contract labor. They are likely to have the chance to do so. The *Gazette* had heard such a rumor but did not give credence to it. The Lafayette *Evening Call* on Monday says that such a rumor prevails there. And that instead of having always lived in loving relations with his employes, Mr. Bass' works came very near being burned by a mob at one time, because of his attitude toward laboring men. If these rumors are untrue Mr. Bass' friends can easily place the truth before the public.—*From the Gazette, this morning.*

The employes at the Bass Foundry and Machine works are among the best citizens of Fort Wayne. They own their own homes, have pleasant families are honorable and intelligent and live handsomely in the enjoyment of good wages, which Mr. Bass always pays.

The *Gazette* asks these gentlemen to deny that they at one time threatened to burn down the great Bass works because of a difference with their owner.

In the employ of Mr. Bass are men as old as the works. THE SENTINEL calls on them to answer the *Gazette's* question and tenders the free use of its columns for any and all communications from them.

Gentlemen you cannot rest under the imputation that you are incendaries or a lawless element, for the *Gazette's* criticisms are intended to injure your characters abroad, not at home, for it could not do so if it wished to.

NOT SURE OF VICTORY.

Indiana Republicans Have Appealed to Illinois for Oratorical Help.

CHICAGO, Aug. 29.—The Indiana republicans recognize the fact, apparently, that they have a hard fight before them and that they must get their best timber to the front in order to win. There was a conference at the Grand Pacific hotel yesterday between members of the county central committees of the northern counties of Indiana and and members of the Illinois state central committee. John I. Dille, of Indianapolis, secretary of the republican state committee, was present as the representative of the Indiana state central committee. Secretary Daniel Shepard represented the chairman of the Illinois state central committee.

It was resolved to pour all available speakers into the northern Indiana counties where the manufacturing interests are located, and to make the tariff and protective idea the prominent feature of the canvass.

Mr. Dille said that he had no doubt of the outcome in his state, that the republicans would surely win, but the safest course was the best. No stone would be left unturned to roll up a big majority for Harrison.

The conference was a very quiet affair and arrangements were made with Secretary Shepard to send several good speakers to the northern part of Hoosierdom to help out the Indiana republicans.

DON'T SCOLD

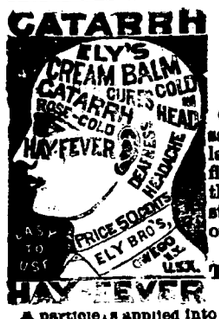

a man for groaning when he has Rheumatism or Neuralgia. The pain is simply awful. No torture in the ancient times was more painful than these twin diseases. But—oughtn't a man to be blamed if, having Rheumatism or Neuralgia, he wont use Ath-lo-pho-ros, when it has cured thousands who have suffered in the same way? It has cured hundreds after physicians have pronounced them incurable.

"The skill of five physicians could not cure me of Rheumatism which had settled in the hips, neck and shoulders. So intense was the pain that sleep was almost impossible. The first dose of Athlophoros gave me relief, and the third enabled me to sleep for four and a half hours without waking. I continued its use, and am now well."

New Morton club invitation—"Free admission to the Morton club rooms until after the election. Your votes, not your society, we want, Mr. Humble Wage Worker."

JUDGE THURMAN puts it this way: "When you tax people for more than the government has any occasion to demand you are robbing the people of the money that belongs to them."

THE Morton club will hold none of its society receptions until after the November election. The honest, humble voter is not good enough for society purposes in the eyes of the silk stocking statesmen.

PRESIDENT CLEVELAND'S message so prostrated Mr. Blaine that it was two days before the Plumed Knight attempted a criticism. The message was a cruel surprise to the enemy, but they must expect such things from Mr. Cleveland.

THE *Gazette* says that a number of railroad men are members of the Morton club. Railroad officers belong to the club, but not a single shopman, not a brakeman, not an engineer, not a fireman, not a conductor. Name one if you can.

THE sugar trust extorts—yes, steals $80,000,000 a year from the people by controlling the market and fixing its own price. Mr. Blaine says this is a private affair with which President Cleveland and the democratic party has no right to interfere. What do you think about it, Mr. Voter?

LAST Saturday the great trade journals and commercial reports agreed in describing the business situation as improving and the outlook as hopeful. "A better feeling grows in every direction," said *Dun's* report. "There has been a decided improvement in the condition of general business," said *Bradstreet's*. A "steady improvement in the condition of manufacturers," reported the Boston *Commercial Bulletin*. The people will agree that it is wholesome and wise to let well enough alone.

DURING THE CAMPAIGN ONLY.

The Morton Club hall is open every night in the week and all republicans of the county are invited to make it their political home during the campaign. All are welcome.—*From the Gazette.*

This expresses it. "*Make it your home during the campaign*" for after that unauspicious republican event, Mr. Voter, you cannot enter the Morton Club hall unless you have a silk bound card of admission and wear a spike-tail coat. Ask Will Wilson, Cy Fike, and others. They know how it is.

Another Soldier Convert.

MUNCIE, Aug. 29.—Mr. W. S. Maywood, of this city is republican soldier No. 6 to go back on the g. o. p. Ten years ago Mr. Maywood filed an application for a pension and ten years rolled by before he secured it. His claim was granted through the efforts of democrats alone, the Hon. D. W. Voorhees, Col. Matson and Gen. Black. He is a reasonable man, is grateful for his kindness under the democratic administration and indignant at his treatment under republican mal-administration. He will therefore cast his vote this year without fear of losing it.

THE GAZETTE AND THE FISHERIES TREATY.

The *Gazette*, this morning, after long and painful silence, assumes that the fisheries treaty recently rejected by the senate, was not satisfactory to the American interests but to the Canadians. This phase of the question is contradicted by the Canadian press from whence it met opposition. On the other hand it gave to Americans the advantages and privileges they asked for in Canadian waters.

Again the *Gazette* asserts that Mr. Cleveland, after the treaty was rejected, could have enforced retaliation under the act of 1887, without consulting congress.

The republicans passed a resolution in March, 1887, giving the president limited authority to retaliate on Canadian fishing vessels. Retaliation in this way would operate equal hardships on Americans since it would not cover all the avenues of escape open to Canadians.

The president sought to make retaliation complete and he asks power of the senate to enforce restrictions on Canadian railroads as well as on the Canadian marine. He asks power to levy embargoes on the transportation of Canadian merchandise in bond across portions of our territory covered by roads forming part of the Canadian system. These bonded routes for transportation are owned by foreign corportions, who reap all the profits from them. With the exception of a few rich men, such as Mr. Morton, Americans have little interest in them, and the corporations are not merely creatures of a foreign government, but the roads are virtually the properties of that government. To stop the traffic of these corporations within our borders would be retaliation of the most effective kind applied directly to the authority we hold responsible, and enforcible without hurt to any America.

Here is an example—the Canadians, after getting their goods into commerce, enjoy privileges equal to our own citizens, but deny like justice to Americans in the dominion.

For instance the Canadians export large quantities of fish to the West Indies. Cuba imposes a duty of fifty-six cents per quintal on Canadian fish, but admits fish from the United States, free. Canadians evaded the Cuban duty by shipping their fish by way of New York, then as United States merchandise Canadian fish went into Cuba free of duty.

The existing retaliation bill does not withdraw this privilege, but the legislation asked for by President Cleveland would put an immediate stop to this practice and prevent the Canadians from obtaining by a trick the advantages belongs to people in the United States until they do justice to American interests.

THE BASS EMPLOYES INSULTED AND INJURED.

Every incident in the history of the Bass Foundry and Machine works is known to the people of Fort Wayne. At no time did Mr. Bass employ a "mob" as the *Gazette* states, nor did his "mob" of workmen threaten to burn down the works. The *Gazette* knows that its statements and insinuations are false, and if it did not, it could satisfy itself by telephoning Mr. Bass or any of his employes.

The *Gazette* is not seeking the truth. It prefers to infer and create the impression abroad that the employes of the Bass works are incendiaries—a lawless mob and cites a robber tariff newspaper at Lafayette as authority.

THE SENTINEL mistakes the character and temper of the employes of the Bass works if they rest under such imputations and damaging falsehoods.

There ought to be decency in politics, but especially should the good names and characters of the workingmen of Fort Wayne be free from insults and injury.

Suppose, for instance, an employe of the Bass works went abroad for work. "Where were you employed last?" is asked.

"By Mr. Bass, of Fort Wayne," is the reply.

"I see by the *Gazette*," retorts the superintendent, "that a mob attempted to burn Mr. Bass' works and the statement was not denied. I suppose you were involved. I don't want you."

This is about the reception you will get abroad, Mr. Shopman, if the *Gazette* is let go in its mad career to ruin reputations and tear down characters.

Mr. Chairman, we want not only the home market, but all the markets of the world for the varied products of this great country. (Applause.) We want to send our agricultural products, our cotton, and our breadstuffs, and our provisions to the naked and hungry manufacturing peoples of Europe, and our manufactured products to the agricultural people of South America, Mexico and Asia. We can do this when we determine to trade with other people upon fair terms, but we cannot do it so long as we protect England and other manufacturing countries in the great markets of the world upon the pretense of protecting ourselves in our own. Let us diminish the cost of production in our agricultural and manufacturing industries, not by diminishing the wages of labor, but by reducing taxation upon the necessaries of life and upon the materials which constitute the basis of our finished products, and by removing, as far as we can, the restrictions which embarrass our people in their efforts to exchange the fruits of their own toil which they do not need for the commodities of other countries which they do need. (Great applause, loud and prolonged.)

"WHAT THE FARMER NEEDS MOST IS A HOME MARKET IN WHICH HE CAN PURCHASE HIS SUPPLIES AS CHEAPLY AS HIS COMPETITORS."—Speaker Carlisle.

You have taxed me poor and the trusts and the monopolists rich. Now take the war-tax off of me or take the consequence. Give us the Mills' Bill, which protects honest labor and admits raw materials free!"

A Fort Wayne Cane.

We clip the following from the Jackson *Patriot*:

"At the regular monthly meeting of the Emmet Rifles, last evening, the members of company received their pay for services at camp. It took $820 to go around. Capt. E. J. Lennon tendered his resignation as captain of the company, on account of having removed from the city. It was accepted and Lietenant Seery, in behalf of the company, presented Captain Lennon with an elegant gold headed cane, on the head of which was engraved, 'To Capt. E. J. Lennon from the Emmet Rifles, Aug. 27, 1888.' The captain made a few appropriate remarks on receiving the cane, on which he congratulated the boys on their proficiency in drill and their gentlemanly bearing both while on and off duty at camp. The company is now in charge of Lieut. F. M. Drumm, who will probably be the leading candidate for the vacant captaincy."

Captain Lennon is at present associated with M. F. Belger, in business, at 140 Calhoun street, this city. He is captain of the Eighth ward Jeffersonian club and a capital good fellow. He will return from Jackson this evening.

DR. J. C. AYER & Co., Lowell, Mass.,

Gentlemen:—A sense of gratitude and the desire to render a service to the public impel me to make the following statements:

My college career, at New Haven, was interrupted by a severe cold which so enfeebled me that, for ten years, I had a hard struggle for life. Hemorrhage from the bronchial passages was the result of almost every fresh exposure. For years I was under treatment of the ablest practitioners without avail. At last I learned of

Ayer's Cherry Pectoral,

which I used (moderately and in small doses) at the first recurrence of a cold or any chest difficulty, and from which I invariably found relief. This was over 25 years ago. With all sorts of exposure, in all sorts of climates, I have never, to this day, had any cold nor any affection of the throat or lungs which did not yield to AYER'S CHERRY PECTORAL within 24 hours.

Of course I have never allowed myself to be without this remedy in all my voyages and travels. Under my own observation, it has given relief to vast numbers of persons; while in acute cases of pulmonary inflammation, such as croup and diphtheria in children, life has been preserved through its effects. I recommend its use in light but frequent doses. Properly administered, in accordance with your directions, it is

A Priceless Blessing

in any house. I speak earnestly because I feel earnestly. I have known many cases of apparently confirmed bronchitis and cough, with loss of voice, particularly among clergymen and other public speakers, perfectly cured by this medicine. Faithfully yours,
C. EDWARDS LESTER.

That Tired Feeling

The warm weather has a debilitating effect, especially upon those who are within doors most of the time. The peculiar, yet common, complaint known as "that tired feeling," is the result. This feeling can be entirely overcome by taking Hood's Sarsaparilla, which gives new life and strength to all the functions of the body.

"I could not sleep; had no appetite. I took Hood's Sarsaparilla and soon began to sleep soundly; could get up without that tired and languid feeling; and my appetite improved." R. A. SANFORD, Kent, Ohio.

Strengthen the System

Hood's Sarsaparilla is characterized by three peculiarities: 1st, the *combination* of remedial agents; 2d, the *proportion;* 3d, the *process* of securing the active medicinal qualities. The result is a medicine of unusual strength, effecting cures hitherto unknown. Send for book containing additional evidence.

The Bass machine shops have a force of six night men on duty in that department.

James Chamberlain, of the Pittsburg shops, will go to Valparaiso Saturday on a business trip.

Mr. G. L. Potter, master mechanic of the Pittsburg shops, returned from Chicago this morning.

The Berghoff brewery will resume the brewing of beer within two weeks. One hundred men are now working night and day.

John Wallace, of the Pittsburg boiler shops, has returned from Philadelphia where he has been visiting for several weeks.

Christ Kruse, of the Pittsburg boiler shops, who was injured a few days ago by a piece of steel striking him on the arm, reported for duty at the shop again this morning.

Mr. Joseph Carney, of Altoona, Pa., one of the oldest engineers on the western division of the Pennsylvania railroad system, is in the city visiting his son, James Carney, on Madison street.

Yesterday was the twenty-fifth birthday anniversary of Mr. James A. Carney, of the Pittsburg blacksmith shops, and in the evening a large number of friends assembled at his home to do him honor over the event.

John Daley, of the Bass machine shops, is off duty to-day. When he returns to work again he will no longer be a bachelor, for he is to be married to an accomplished young lady of the city to-morrow morning at the cathedral.

Ed. Challenger, clerk at the Pittsburg boiler shops, so Jim Sloan tells us, is reported as saying that if there is a possibility of his being able to get a white hat big enough for him in the city, he will be found in the Jeffersonian ranks at the Friday night parade of that organization.

Officers of car-works are much pleased to hear the cry of a scarcity of cars to move the business offered, thinking that it means business for them. In fact the increasing inquiries as to prices and time of delivery indicate that the car-builders have good grounds to expect a revival in business. But few now have orders requiring their full productive capacity.

AN INGENIOUS SWINDLE.

A few months ago the announcement was made in these columns that an agent of the Chinese government was in America with authority to employ a large number of railroad engineers, firemen and brakemen to go to China and operate a new railroad that was being built across that empire.

A similar announcement was made in a large number of other papers and it produced a flutter among railroad men, who, attracted by the high wages offered and with a desire to satisfy their adventuresome spirit, were ready to jump at the chance offered them.

Notwithstanding the fact that we treated the thing as a hoax and the write up was intended as a humorous article upon the subject at the time, a large number were deceived by it and made many inquiries of us concerning the whereabouts of the agent and when he would arrive in Fort Wayne.

It seems however that there was a man traveling through the country attempting to swindle the railroad men with a scheme of this kind for F. A. Bee, the Chinese consul at San Francisco has written a letter to Mr. Arthur, the grand chief of the Brotherhood of Locomotive Engineers, taking this view of the matter and thoroughly exposing the whole thing as a fraud and pronouncing it a money making scheme and confidence game.

Who's Boss?

A gentleman living on Duffield street hired a man to clean the wood-shed. He took him into the building and showed him what there was to do.

"I'll give you 50 cents to do the job," he said.

The man looked it over and estimated the time it would take, and said he could not do it for less than a dollar.

"Nonsense," said the capitalist sharply, "there's nothing to do but carry out a few handfuls of rubbish. I could do it in twenty minutes!"

"No, you could not," said Mrs. Capitalist who at that moment appeared. "I cleaned it out myself the last time it was done and it took me three hours."

"Say," asked the man with a sly twinkle in his eye, "who's boss."

"Both of us are," answered the lady quietly. "Mr. —— has offered you 50 cents and I will give you 50 cents, as I know the value of the work, and you can begin at once."

He earned his dollar.—*Detroit Free Press.*

Sufferings Intense. Head nearly raw Body covered with Sores. Cured by the Cuticura Remedies.

Messrs. STEVENS & BRUNER, Monroe, N. C.

Dear Sirs.—About two months ago, on your recommendation, I bought a bottle of Cuticura Resolvent, one box of Cuticura Salve, and one cake of Cuticura Soap, for my son, aged thirteen years, who has been afflicted with eczema for a long time, and I am pleased to say that I believe the remedies have cured him. His sufferings were intense, his head being nearly raw, his ears being gone except the gristle, and his body was covered with sores. His condition was frightful to behold. The sores have now all disappeared, his skin is healthy, eyes bright, cheerful in disposition, and is working every day. My neighbors are witnesses to this remarkable cure, and the doubting ones are requested to call or write me, or any of my neighbors.

Sneezing Catarrh.

The distressing sneeze, sneeze, sneeze, the acrid watery discharges from the eyes and nose, the painful inflammation extending to the throat, the swelling of the mucous lining, causing choking sensations, cough, ringing noises in the head and splitting headaches,—how familiar these symptoms are to thousands who suffer periodically from head colds or influenza, and who live in ignorance of the fact that a single application of Sanford's Radical Cure for Catarrh will afford instantaneous relief.

But this treatment in cases of simple Catarrh gives but a faint idea of what this remedy will do in the chronic forms, where the breathing is obstructed by choking, putrid mucous accumulations, the hearing affected, smell and taste gone, throat ulcerated and hacking cough gradually fastening itself upon the debilitated system. Then it is that the marvelous curative power of Sanford's Radical Cure manifests itself in instantaneous and grateful relief. Cure begins from the first application. It is rapid, radical, permanent, economical, safe.

"Nearly Everybody Reads It."

The Merchant reads the **Chicago Daily News** because he must know what's going on in the great business centres of the world, and he can't waste time hunting for it in a "blanket sheet."

The Farmer reads the **Chicago Daily News** because he makes more than $3.00 a year—one cent a day—by keeping promptly posted on the variations of the market,—he doesn't wait for the slow weeklies any more.

The Mechanic reads the **Chicago Daily News** because he knows that even in matters of handicraft the more general intelligence a man has the more he'll earn. The workingman can well afford his daily paper at "one cent a day."

Grandfather reads the **Chicago Daily News** because it gives all the news, and yet so condensed that it doesn't tire him out to read it. And then, the print is so clear.

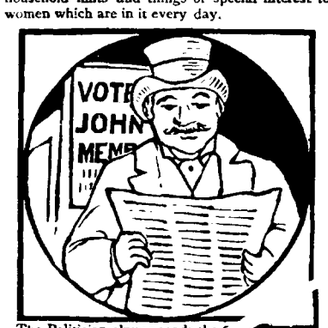

Mother reads the **Chicago Daily News** because she wants to keep up with her husband in general information, and then she particularly enjoys the household hints and things of special interest to women which are in it every day.

Grandmother reads the **Chicago Daily News** because she still wants to know what's going on. And it's a comfort to see a daily paper in the family that's clean and pure,—one she's not afraid to have "the children see."

The Boys all want the **Chicago Daily News** because it gives the base ball news so fully,—to say nothing of all the other things boys enjoy. And this year even the boys don't skip the political news.

The Politician always reads the **Chicago Daily News** because its an impartial paper, and whether he likes its independent views or not, he wants to know the *truth*. He "supports" his particular party "organ," but when he wants cold *facts* he reads the CHICAGO DAILY NEWS.

The Girls all read the **Chicago Daily News** because they're specially interested in its chatty gossips about fashions and home matters, to say nothing about the excellent serial story always running.

The Post Office Review, says: "Nearly everybody who reads the English language in, around and about Chicago, reads the **Chicago Daily News.**" Do you? Its a "short and to the point paper,"—made particularly for busy people, and it costs one cent a day. All newsdealers sell it, and all postmasters forward subscriptions for it at $3.00 a year, or $1.00 for four months. Address

We, the committee on sewers, make the following report:

1. We have awarded the contract to Joseph Derheimer for constructing an 18 inch sewer on Dock street from the west line of lot 42, original plat to Calhoun street.

2. We have awarded the contract to Joseph Derheimer for constructing a 15-inch sewer in the alley between Berry street and Wayne street, from Griffith street to Fulton street.

4. In favor of the ordinance to construct a 12-inch sewer in the alley between Wayne and Washington streets, from Calhoun street to Clinton street.

5. Adverse to the petition of Herman J. Berghoff for brick sewer in the alley between Wabash avenue and Glasgow avenue for the reason that the property to be assessed for said sewer is not valued high enough on the tax dublicate to pay the cost of constructing said sewer, but we recommend that the street commissioner notify the property owners abutting on said alley to clean the ditch so as to prevent the stagnant water from remaining in said aley.

REPORT OF CITY CIVIL ENGINEER.

I, your city civil engineer, to whom was referred section 1, of the street commissioner's report, will report that I have examined the cobble stone gutter on the west side of Wells street, opposite Second street, as set forth in said section 1, of the street commissioner's report, and find that the gutters are laid from ten to twelve inches below the crown of the street center, which is as low as the gutter should be, except at the upper end, which raises too abrupt in the last twenty feet, and can be lowered without affecting the balance of the gutter, the expense of which will not exceed $5. But this will only be temporary improvement, for in cleaning the gutters that are unimproved they will be gradually lowered until the bottom is below the grade line of the improved gutter, which will again form a basin and the water collects and cause the same trouble. It is poor policy and worse economy, to improve gutters in patches, as has been done on Wells street.

RETURNING HEROES.

The Rifles and Zollinger Battery are Given a Royal Reception Upon Their Return From Evansville.

The Fort Wayne Rifles and the Zollinger Battery returned last evening, over the Pittsburg, from the Evansville encampment, where as has already been noted in these columns, they won for themselves the first honors in the competitive drill at that place. Preparations had been made to receive them in a royal manner and when the 7:40 o'clock passenger train whirled into the depot a grand ovation awaited and was given them.

Every foot of room almost in the vast depot space was crowded with their enthusiastic friends. The City band was there and a reception squadron, laden with fireworks, stood ready to make the night brilliant and the welcome a magnificent one. As the train with the returning heroes passed the Calhoun street crossing from the west enthusiastic shouts went up from the immense crowd, the band struck up a national air and the fireworks squadron added their illuminations to the brilliancy of the occasion.

The march down Calhoun street was one continued ovation. The street on both sides was lined with people and from every side, brilliant fireworks rent the air, while voices were shouted hoarse all along the line of their march. The companies pursued the line of march outlined in yesterday's SENTINEL, and drew up in front of their armory on Calhoun street, where with three cheers from the crowd for the Rifles and the Battery, they disbanded to receive the congratulations of hundreds for their laurels won and to recite the scenes and incidents of their camp life and their victories.

The boys speak in high terms of the treatment afforded them by the citizens of Evansville and report having had a delightful time during their ten day's encampment. The ovation tendered them last night is proof convincing that the city is proud of her handsome soldier boys. They have earned their laurels and let them wear them proudly, feeling that the citizens of Fort Wayne will ever remember the honor they have brought to her name by the victories won at the Evansville encampment.

TOOK TO THE WOODS

A Negro Politician in Arkansas, Guilty of Crooked Work, Leaves for Other Parts.

LITTLE ROCK, Aug. 29.—Race war is imminent at Wabbesco, Ark. The negroes have a township ticket there. It is a compromise ticket with whites and blacks divided and a straight democratic ticket. A negro politician named John Taylor is the cause of the trouble, the whites vowing that unless he desists from crooked practices there will be blood shed. Taylor has taken to the woods.

WASHINGTON.

Proceedings of Both Houses of Congress To-day.

WASHINGTON, Aug. 28.—Mr. Reagan introduced a bill to permit the importation of jute bagging free of duty. It was referred to the committee on finance. He spoke of "the trust," which had increased the price of jute bagging and said the cotton planters were discussing the question as to whether they would not withhold their cotton from the market until that oppression passed by.

HOUSE.

Mr. Forney, of Alabama, asked unanimous consent to introduce for immediate consideration a joint resolution to provide temporarily (until September 15) for the expenditures of the government. He explained that all appropriation bills had passed with the exception of the army and sundry civil bills and that the resolution only applied to those two objects.

A bill for printing government securities in the highest style of art was passed.

The speaker has appointed a new set of conferees on the part of the house for the second conference on the army appropriation bill. The original conferees were Messrs. Townshend, Maish and Laird and for the two last named the speaker has substituted Messrs. Sayers and Butterworth, both members of the appropriation committee, who are strongly committed by their public speeches to the rejection of the senate amendments providing for the construction of a heavy ordnance, while the members displaced have favored the amendments in the conference. The report was rejected by the house.

The fortifications appropriation bill reported by Senator Plumb this morning from the committee on appropriations, differs in material respects from the bill as it came from the house. The appropriations carried by the bill are increased from $8,625,000 to $8,322,00 and there is further provisions under which $6,000,000 additional may be expended at a rate not exceeding $2,000,000 per annum for the purchase of guns.

Mr. Washington, of Tennessee, called up the bill to increase the efficiency of the medical division, declaring that it was difficult to obtain the best medical talent on account of the smallness of the salaries.

The first shipment of the standard silver dollar for storage in the large new treasury vault was received at the department this morning.

It came from Philadelphia by express and amounted to $500,000. These shipments in lots of $500,000 will continue daily for about six months until they aggregate $100,000,000, the capacity of the vault.

AFTER DEATH.

Important Developments Brought Forth by a Coroner's Inquest.

GOSHEN, Ind., Aug. 29.—The death of Mrs. Allen Zollinger, of this city, last Sunday, has brought forth some important facts.

The inquest held by Coroner Johnson resulted in the decision that the deceased had come to her death from peritonitis following a miscarriage produced by Miss Luella Day, a doctress of this city.

Public sentiment is strongly against Dr. Day, and it is increased by the assertion that just before death Mrs. Zollinger said to her husband: "Dr. Day lied to me, Allen, and killed me to get the $10."

Mrs. Zollinger was the only daughter of a wealthy farmer of this county and leaves a family of three children.

New York Republicans.

SARATOGA, N. Y., Aug. 29.—The republican state convention, held here yesterday, nominated the following ticket: Governor, Warren Miller; lieutenant governor, S. V. R. Cruger; judge of Appeals, Judge Rumsey. The platform commends the rejection of the fisheries treaty and approves of the republican national platform.

Frank Higbee, the boot black, was before Esquire Ryan to-day. It was surmised that he emptied the cash drawer at Rehmen's saloon last night, but the proof was not positive so he was given ten hours to get out of town.

GEN. BEN'S ARRANGEMENTS.

Preparing To Hold a Public Reception at Put-in-Bay.

TOLEDO, Ohio, Aug. 29.—A Middle Bass special says: Ex-Gov. Foster has perfected arrangements for a public reception to Gen. Harrison at Put-in-Bay on Friday next. Excursions will be run from Cleveland, Sandusky, Detroit, Toledo and other like towns and all the people in this section will be invited to come to meet Gen. Harrison at Put-in-Bay next Friday afternoon.

He says that it is probable that there will be no speaking and no regular program, but hand-shaking and a general good time Friday afternoon. A committee from Toledo visited Gen. Harrison yesterday to invite him to attend a monster two day's mass meeting at Fremont, on the Maumee, ten miles above Toledo. The general promised to take the matter into consideration and says if he accepts any invitations outside of Indiana he will go to Fort Meigs on account of the historical association.

Must Take Freight.

NEW ORLEANS, La., Aug. 29.—Judge Pardee has ordered Receiver Brown, of the Texas Pacific road, to accept freight for Texas points offered by the Queen and Crescent route. The freight had been refused because the Queen and Crescent road had declined to change its tariff in accordance with the resolution of the Texas Tariff association, therefore, the Queen and Crescent applied to the United States court with the above result.

Just before selling the furniture of an old lady at Ryde, England, the executor examined an ancient bureau and discovered a secret drawer in which were upward of 1,000 sovereigns, closely packed.

A CASHIER'S CUT.

He is Short in His Accounts and Cuts His Throat, From Which He Dies in Fifty Minutes.

HARTFORD, Conn., Aug. 29.—Joseph Breed, cashier of Hartford National bank, committed suicide, at 8:40 o'clock, this morning, in the bank building by cutting his throat. He died at 9:30 o'clock.

Mr. Breed was trustee on three estates and it is rumored his accounts were, or had been, short on all these. The officers of the bank say his accounts there are all right. He has had a good reputation and apparently has not been living beyond his income.

NEW BONDS DELAYED.

The Pittsburg and Fort Wayne Road is Watching the Pennsylvania People.

Three months ago, after considerable discussion between the bondholders and directors of the Pittsburg, Fort Wayne and Chicago road, it was decided to issue improvement bonds in the future to the Pennsylvania railroad company, which leases the line, to reimburse it for the money expended in betterments, extensions, etc., on the leased road. The Fort Wayne had previously issued stock for this purpose, but to save considerable of an annual charge, as well as to make it impossible that the Pennsylvania should acquire control of the road through ownership of a majority of the stock, it was decided to make payments in bonds. The first lot of bonds, in part to make return for work already done, was to be $1,000,000; and it was expected that they would be issued at once. Inquiry discloses that these bonds have not been issued as yet. The form of the bond has been prepared, and all requisite action on the part of the Fort Wayne has been taken. From one of the directors it learned that the delay is owing to the failure of the Pennsylvania railroad to take action as yet upon the Fort Wayne's proposition. It has been hinted that the Pennsylvania board is opposed to the change of plan. The above authority, however, says that he is assured that President Roberts, of the Pennsylvania, favors it, and that action will be taken accepting the terms proposed in due course.

MIKE COLLINS.

A Fort Wayne Youth in Serious Trouble.

Yesterday, Marshal Frank Supple, of Columbia City, came to town in search of Mike Collins, a Baker street lad, who is wanted out there for burglary.

It seems that Collins and one Carter entered a house of ill fame out there and captured a gold watch, pair of bracelets and some other valuables. They were detected and Collins, to escape arrest, leaped from the second-story window with his ill-gotten goods.

Both young fellows belong to the Downey gang and Marshal Meyer and Officer O'Ryan are to be credited with the capture of Collins. They delivered him over to Marshal Supple.

CINCINNATI, O., Aug. 29.—A call has been made by the state chess associations of Massachusetts, Rhode Island, Virginia, New Jersey, Indiana and Ohio for a convention to organize a national chess association to conduct a championship tournament open to the accredited or acknowledged champions of several states, and a minor tournament open to all comers, concluding with a match between the winners of the two tournaments.

The convention is to meet here September 4 and continue probably one week. Among those who will enter in the tournament are: A. B. Hodges, of Tennessee; J. W. Showalter, of Kentucky; J. M. Tomlinson, of Indiana; E. D. Payne, of Ohio; R. B. Reve, of New Jersey; G. H. D. Gossip, of New York, and John Kirkpatrick, of Virginia.

TO THE BASS EMPLOYES.

Are You Incendiaries and Did You Threaten to Burn the Bass Works Down?

THE SENTINEL says that Mr. Bass' men will testify that he did not import contract labor. They are likely to have the chance to do so. The *Gazette* had heard such a rumor but did not give credence to it. The Lafayette *Evening Call* on Monday says that such a rumor prevails there. And that instead of having always lived in loving relations with his employes, Mr. Bass' works came very near being burned by a mob at one time, because of his attitude toward laboring men. If these rumors are untrue Mr. Bass' friends can easily place the truth before the public.—*From the Gazette, this morning.*

The employes at the Bass foundry and Machine works are among the best citizens of Fort Wayne. They own their own homes, have pleasant families are honorable and intelligent and live handsomely in the enjoyment of good wages, which Mr. Bass always pays.

The *Gazette* asks these gentlemen to deny that they at one time threatened to burn down the great Bass works because of a difference with their owner.

In the employ of Mr. Bass are men as old as the works. THE SENTINEL calls on them to answer the *Gazette's* question and to turn the free use of its columns for any and all communications from them.

Gentlemen you cannot rest under the imputation that you are incendiaries or a lawless element, for the *Gazette's* criticisms are intended to injure your characters abroad, not at home, for it could not do so if it wished to.

NOT SURE OF VICTORY.

Indiana Republicans Have Appealed to Illinois for Oratorical Help.

CHICAGO, Aug. 29.—The Indiana republicans recognize the fact, apparently, that they have a hard fight before them and that they must get their best timber to the front in order to win. There was a conference at the Grand Pacific hotel yesterday between members of the county central committees of the northern counties of Indiana and and members of the Illinois state central committee. John L. Dille, of Indianapolis, secretary of the republican state committee, was present as the representative of the Indiana state central committee. Secretary Daniel Shepard represented the chairman of the Illinois state central committee.

It was resolved to pour all available speakers into the northern Indiana counties where the manufacturing interests are located, and to make the tariff and protective idea the prominent feature of the canvass.

MR. DILLE said that he had no doubt of the outcome in his state, that the republicans would surely win, but the safest course was the best. No stone would be left unturned to roll up a big majority for Harrison.

The conference was a very quiet affair and arrangements were made with Secretary Shepard to send several good speakers to the northern part of Hoosierdom to help out the Indiana republicans.

DON'T SCOLD

a man for groaning when he has Rheumatism or Neuralgia. The pain is simply awful. No torture in the ancient times was more painful than these twin diseases. But—oughtn't a man to be blamed if, having Rheumatism or Neuralgia, he wont use Ath-lo-pho-ros, when it has cured thousands who have suffered in the same way? It has cured hundreds after physicians have pronounced them incurable.

"The skill of five physicians could not cure me of Rheumatism which had settled in the hips, neck and shoulders. So intense was the pain that sleep was almost impossible. The first dose of Athlophoros gave me relief, and the third enabled me to sleep for four and a half hours without waking. I continued its use, and am now well."

New Morton club invitation—"Free admission to the Morton club rooms until after the election. Your votes, not your society, we want, Mr. Humble Wage Worker."

Judge Thurman puts it this way: "When you tax people for more than the government has any occasion to demand you are robbing the people of the money that belongs to them."

The Morton club will hold none of its society receptions until after the November election. The honest, humble voter is not good enough for society purposes in the eyes of the silk stocking statesmen.

President Cleveland's message so prostrated Mr. Blaine that it was two days before the Plumed Knight attempted a criticism. The message was a cruel surprise to the enemy, but they must expect such things from Mr. Cleveland.

The *Gazette* says that a number of railroad men are members of the Morton club. Railroad officers belong to the club, but not a single shopman, not a brakeman, not an engineer, not a fireman, not a conductor. Name one if you can.

The sugar trust extorts—yes, steals $50,000,000 a year from the people by controlling the market and fixing its own price. Mr. Blaine says this is a private affair with which President Cleveland and the democratic party has no right to interfere. What do you think about it, Mr. Voter?

Last Saturday the great trade journals and commercial reports agreed in describing the business situation as improving and the outlook as hopeful. "A better feeling grows in every direction," said *Dun's* report. "There has been a decided improvement in the condition of general business," said *Bradstreet's*. A "steady improvement in the condition of manufacturers," reported the Boston *Commercial Bulletin*. The people will agree that it is wholesome and wise to let well enough alone.

DURING THE CAMPAIGN ONLY.

The Morton Club hall is open every night in the week and all republicans of the county are invited to make it their political home during the campaign. All are welcome.—*From the Gazette.*

This expresses it. *"Make it your home during the campaign"* for after that unauspicious republican event, Mr. Voter, you cannot enter the Morton Club hall unless you have a silk bound card of admission and wear a spike-tail coat. Ask Will Wilson, Cy Fike, and others. They know how it is.

Another Soldier Convert.

Muncie, Aug. 29.—Mr. W. S. Maywood, of this city is republican soldier No. 6 to go back on the g. o. p. Ten years ago Mr. Maywood filed an application for a pension and ten years rolled by before he secured it. His claim was granted through the efforts of democrats alone, the Hon. D. W. Voorhees, Col. Matson and Gen. Black. He is a reasonable man, is grateful for his kindness under the democratic administration and indignant at his treatment under republican mal-administration. He will therefore cast his vote this year without fear of losing it.

THE GAZETTE AND THE FISHERIES TREATY.

The *Gazette*, this morning, after long and painful silence, assumes that the fisheries treaty recently rejected by the senate, was not satisfactory to the American interests but to the Canadians. This phase of the question is contradicted by the Canadian press from whence it met opposition. On the other hand it gave to Americans the advantages and privileges they asked for in Canadian waters.

Again the *Gazette* asserts that Mr. Cleveland, after the treaty was rejected, could have enforced retaliation under the act of 1887, without consulting congress.

The republicans passed a resolution in March, 1887, giving the president limited authority to retaliate on Canadian fishing vessels. Retaliation in this way would operate equal hardships on Americans since it would not cover all the avenues of escape open to Canadians.

The president sought to make retaliation complete and he asks power of the senate to enforce restrictions on Canadian railroads as well as on the Canadian marine. He asks power to levy embargoes on the transportation of Canadian merchandise in bond across portions of our territory covered by roads forming part of the Canadian system. These bonded routes for transportation are owned by foreign corportions, who reap all the profits from them. With the exception of a few rich men, such as Mr. Morton, Americans have little interest in them, and the corporations are not merely creatures of a foreign government, but the roads are virtually the properties of that government. To stop the traffic of these corporations within our borders would be retaliation of the most effective kind applied directly to the authority we hold responsible, and enforcible without hurt to any America.

Here is an example—the Canadians, after getting their goods into commerce, enjoy privileges equal to our own citizens, but deny like justice to Americans in the dominion.

For instance the Canadians export large quantities of fish to the West Indies. Cuba imposes a duty of fifty-six cents per quintal on Canadian fish, but admits fish from the United States, free. Canadians evaded the Cuban duty by shipping their fish by way of New York, then as United States merchandise Canadian fish went into Cuba free of duty.

The existing retaliation bill does not withdraw this privilege, but the legislation asked for by President Cleveland would put an immediate stop to this practice and prevent the Canadians from obtaining by a trick the advantages belongs to people in the United States until they do justice to American interests.

THE BASS EMPLOYES INSULTED AND INJURED.

Every incident in the history of the Bass Foundry and Machine works is known to the people of Fort Wayne. At no time did Mr. Bass employ a "mob" as the *Gazette* states, nor did his "mob" of workmen threaten to burn down the works. The *Gazette* knows that its statements and insinuations are false, and if it did not, it could satisfy itself by telephoning Mr. Bass or any of his employes.

The *Gazette* is not seeking the truth. It prefers to infer and create the impression abroad that the employes of the Bass works are incendiaries—a lawless mob and cites a robber tariff newspaper at Lafayette as authority.

The Sentinel mistakes the character and temper of the employes of the Bass works if they rest under such imputations and damaging falsehoods.

There ought to be decency in politics, but especially should the good names and characters of the workingmen of Fort Wayne be free from insults and injury.

Suppose, for instance, an employe of the Bass works went abroad for work. "Where were you employed last?" is asked.

"By Mr. Bass, of Fort Wayne," is the reply.

"I see by the *Gazette*," retorts the superintendent, "that a mob attempted to burn Mr. Bass' works and the statement was not denied. I suppose you were involved. I don't want you."

This is about the reception you will get abroad, Mr. Shopman, if the *Gazette* is let go in its mad career to ruin reputations and tear down characters.

We clip the following from the Jackson *Patriot*:

"At the regular monthly meeting of the Emmet Rifles, last evening, the members of company received their pay for services at camp. It took $820 to go around. Capt. E. J. Lennon tendered his resignation as captain of the company, on account of having removed from the city. It was accepted and Lieutenant Seery, in behalf of the company, presented Captain Lennon with an elegant gold headed cane, on the head of which was engraved, 'To Capt. E. J. Lennon from the Emmet Rifles, Aug. 27, 1888.' The captain made a few appropriate remarks on receiving the cane, on which he congratulated the boys on their proficiency in drill and their gentlemanly bearing both while on and off duty at camp. The company is now in charge of Lieut. F. M. Drumm, who will probably be the leading candidate for the vacant captaincy."

Captain Lennon is at present associated with M. F. Beiger, in business, at 140 Calhoun street, this city. He is captain of the Eighth ward Jeffersonian club and a capital good fellow. He will return from Jackson this evening.

Hon. C. Edwards Lester,

Late U. S. Consul to Italy, author of "The Glory and Shame of England," "America's Advancement," etc., etc., etc., writes as follows:—

New York, August 1, 1888, 123 E. 27th st.

Dr. J. C. Ayer & Co., Lowell, Mass.,

Gentlemen:—A sense of gratitude and the desire to render a service to the public impel me to make the following statements:

My college career, at New Haven, was interrupted by a severe cold which so enfeebled me that, for ten years, I had a hard struggle for life. Hemorrhage from the bronchial passages was the result of almost every fresh exposure. For years I was under treatment of the ablest practitioners without avail. At last I learned of

Ayer's Cherry Pectoral,

which I used (moderately and in small doses) at the first recurrence of a cold or any chest difficulty, and from which I invariably found relief. This was over 25 years ago. With all sorts of exposure, in all sorts of climates, I have never, to this day, had any cold nor any affection of the throat or lungs which did not yield to Ayer's Cherry Pectoral within 24 hours.

Of course I have never allowed myself to be without this remedy in all my voyages and travels. Under my own observation, it has given relief to vast numbers of persons; while in acute cases of pulmonary inflammation, such as croup and diphtheria in children, life has been preserved through its effects. I recommend its use in light but frequent doses. Properly administered, in accordance with your directions, it is

A Priceless Blessing

in any house. I speak earnestly because I feel earnestly. I have known many cases of apparently confirmed bronchitis and cough, with loss of voice, particularly among clergymen and other public speakers, perfectly cured by this medicine. Faithfully yours,
C. EDWARDS LESTER.

That Tired Feeling

The warm weather has a debilitating effect, especially upon those who are within doors most of the time. The peculiar, yet common, complaint known as "that tired feeling," is the result. This feeling can be entirely overcome by taking Hood's Sarsaparilla, which gives new life and strength to all the functions of the body.

"I could not sleep; had no appetite. I took Hood's Sarsaparilla and soon began to sleep soundly; could get up without that tired and languid feeling; and my appetite improved." R. A. SANFORD, Kent, Ohio.

Strengthen the System

Hood's Sarsaparilla is characterized by three peculiarities: 1st, the *combination* of remedial agents; 2d, the *proportion*; 3d, the *process* of securing the active medicinal qualities. The result is a medicine of unusual strength, effecting cures hitherto unknown. Send for book containing additional evidence.

"Hood's Sarsaparilla tones up my system, purifies my blood, sharpens my appetite, and seems to make me over." J. P. THOMPSON, Register of Deeds, Lowell, Mass.

"Hood's Sarsaparilla beats all others, and is worth its weight in gold." I. BARRINGTON, 130 Bank Street, New York City.

ECHOES OF THE RAIL.

The Personal News and Local Gossip of the Busy Centers Given as it Fiels in the Air.

Supt. Stevens went west on the Wabash this morning.

The Olds' Wagon Works are now working twelve hours.

The Bass machine shops have a force of six night men on duty in that department.

James Chamberlain, of the Pittsburg shops, will go to Valparaiso Saturday on a business trip.

Mr. G. L. Potter, master mechanic of the Pittsburg shops, returned from Chicago this morning.

Henry Garke, of the Pittsburg boiler shops, with his family, is spending the day at Pleasant Lake.

The Berghoff brewery will resume the brewing of beer within two weeks. One hundred men are now working night and day.

John Wallace, of the Pittsburg boiler shops, has returned from Philadelphia where he has been visiting for several weeks.

Christ Kruse, of the Pittsburg boiler shops, who was injured a few days ago by a piece of steel striking him on the arm, reported for duty at the shop again this morning.

Mr. Joseph Carney, of Altoona, Pa., one of the oldest engineers on the western division of the Pennsylvania railroad system, is in the city visiting his son, James Carney, on Madison street.

Yesterday was the twenty-fifth birthday anniversary of Mr. James A. Carney, of the Pittsburg blacksmith shops, and in the evening a large number of friends assembled at his home to do him honor over the event.

John Daley, of the Bass machine shops, is off duty to-day. When he returns to work again he will no longer be a bachelor, for he is to be married to an accomplished young lady of the city to-morrow morning at the cathedral.

Ed. Challenger, clerk at the Pittsburg boiler shops, so Jim Sloan tells us, is reported as saying that if there is a possibility of his being able to get a white hat big enough for him in the city, he will be found in the Jeffersonian ranks at the Friday night parade of that organization.

Officers of car-works are much pleased to hear the cry of a scarcity of cars to move the business offered, thinking that it means business for them. In fact the increasing inquiries as to prices and time of delivery indicate that the car-builders have good grounds to expect a revival in business. But few now have orders requiring their full productive capacity.

AN INGENIOUS SWINDLE.

A few months ago the announcement was made in these columns that an agent of the Chinese government was in America with authority to employ a large number of railroad engineers, firemen and brakemen to go to China and operate a new railroad that was being built across that empire.

A similar announcement was made in a large number of other papers and it produced a flutter among railroad men, who, attracted by the high wages offered and with a desire to satisfy their adventurous spirit, were ready to jump at the chance offered them.

Notwithstanding the fact that we treated the thing as a hoax and the write up was intended as a humorous article upon the subject at the time, a large number were deceived by it and made many inquiries of us concerning the whereabouts of the agent and when he would arrive in Fort Wayne.

It seems however that there was a man traveling through the country attempting to swindle the railroad men with a scheme of this kind for F. A. Bee, the Chinese consul at San Francisco has written a letter to Mr. Arthur, the grand chief of the Brotherhood of Locomotive Engineers, taking this view of the matter and thoroughly exposing the whole thing as a fraud and pronouncing it a money making scheme and confidence game.

Who's Boss?

A gentleman living on Duffield street hired a man to clean the wood-shed. He took him into the building and showed him what there was to do.

"I'll give you 50 cents to do the job," he said.

The man looked it over and estimated the time it would take, and said he could not do it for less than a dollar.

"Nonsense," said the capitalist sharply, "there's nothing to do but carry out a few handfuls of rubbish. I could do it in twenty minutes!"

"No, you could not," said Mrs. Capitalist who at that moment appeared. "I cleaned it out myself the last time it was done and it took me three hours."

"Say," asked the man with a sly twinkle in his eye, "who's boss."

"Both of us are," answered the lady quietly. "Mr. —— has offered you 50 cents and I will give you 50 cents, as I know the value of the work, and you can begin at once."

He earned his dollar.—*Detroit Free Press.*

Impurities of the blood often cause great annoyance at this season; Hood's Sarsaparilla purifies the blood, and cures all such affections.

MARRIAGE is a feast where the grace is sometimes better than the dinner.—*Home Journal.*

Scrofula, in the blood, corrupts and contaminates every tissue and fiber in the whole body; but whether appearing in the form of swellings, eysipelas, or running sores, the malignant poisons of this disease are completely eradicated by the use of Ayer's Sarsaparilla.

A FRIGHTFUL SKIN DISEAS.

Sufferings Intense. Head nearly raw Body covered with Sores. Cured by the Cuticura Remedies.

Messrs. STEVENS & BRUNER, Monroe, N. C.

Dear Sirs.—About two months ago, on your recommendation, I bought a bottle of Cuticura Resolvent, one box of Cuticura Salve, and one cake of Cuticura Soap, for my son, aged thirteen years, who has been afflicted with eczema for a long time, and I am pleased to say that I believe the remedies have cured him. His sufferings were intense, his head being nearly raw, his ears being gone except the gristle, and his body was covered with sores. His condition was frightful to behold. The sores have now all disappeared, his skin is healthy, eyes bright, cheerful in disposition, and is working every day. My neighbors are witnesses to this remarkable cure, and the doubting ones are requested to call or write me, or any of my neighbors.

THE POTTER DRUG AND CHEMICAL CO.:

Gentlemen.—Mr. Wm. S. Stephenson, of this county brought his son to town to-day to let us see him, and to show us what Cuticura Remedies had done for him. This is the case referred to in our letter to you some time ago. To look at the boy now, one would suppose that there had never been anything the matter with him,—seems to be in perfect health. We have written and herewith inclose what his father has to say about the matter—wrote it just as he dictated.

We are selling quite a quantity of Cuticura Remedies and hear nothing but praises for them. We regard the Cuticura Remedies the best in the market, and shall do all we can to promote their sale. Yours truly,

Sneezing Catarrh.

The distressing sneeze, sneeze, sneeze, the acrid watery discharges from the eyes and nose, the painful inflammation extending to the throat, the swelling of the mucous lining, causing choking sensations, cough, ringing noises in the head and splitting headaches,—how familiar these symptoms are to thousands who suffer periodically from head colds or influenza, and who live in ignorance of the fact that a single application of Sanford's Radical Cure for Catarrh will afford instantaneous relief.

But this treatment in cases of simple Catarrh gives but a faint idea of what this remedy will do in the chronic forms, where the breathing is obstructed by choking, putrid mucous accumulations, the hearing affected, smell and taste gone, throat ulcerated and hacking cough gradually fastening itself upon the debilitated system. Then it is that the marvelous curative power of Sanford's Radical Cure manifests itself in instantaneous and grateful relief. Cure begins from the first application. It is rapid, radical, permanent, economical, safe.

"Nearly Everybody Reads It."

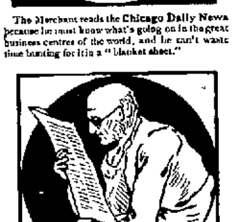

The Merchant reads the Chicago Daily News because he must know what's going on in the great business centres of the world, and he can't waste time hunting for it in a "blanket sheet."

The Farmer reads the Chicago Daily News because he makes more than $3.00 a year—one cent a day—by keeping promptly posted on the variations of the market,—he doesn't wait for the slow weeklies any more.

The Mechanic reads the Chicago Daily News because he knows that even in matters of handicraft the more general intelligence a man has the more he'll earn. The workingman can well afford his daily paper at "one cent a day."

Grandfather reads the Chicago Daily News because it gives all the news, and yet so condensed that it doesn't tire him out to read it. And then, the print is so clear.

Mother reads the Chicago Daily News because she wants to keep up with her husband in general information, and then she particularly enjoys the household hints and things of special interest to women which are in it every day.

Grandmother reads the Chicago Daily News because she still wants to know what's going on. And it's a comfort to see a daily paper in the family that's clean and pure,—one she's not afraid to have "the children see."

The Boys all want the Chicago Daily News because it gives the base ball news so fully,—to say nothing of all the other things boys enjoy. And this year even the boys don't skip the political news.

The Politician always reads the Chicago Daily News because its an impartial [illegible] paper, and whether he likes its independent [illegible] [n]ews or not, he wants to know the *truth*. He [illegible] "supports" his particular party "organ," b[ut] [illegible] when he wants cold *facts* he reads the Chic[ago] Daily News.

The Girls all read the Chicago Daily News because they're specially interested in its chatty gossips about fashions and home matters, to say nothing about the excellent serial story always running.

The Post Office Review, says: "Nearly everybody who [illegible] reads the English Language in, around and about Chicago, reads the Chicago Daily News." Do you? It's a "short and to the point paper,"—made [p]articularly for busy people, and it costs one cent a day. All newsdealers sell it, and all postmasters forward subscriptions for it at $3.00 a year, or [$1].00 for four months. Address

21. In favor of petition of F. M. Smaltz and others asking this council to postpone building sidewalks on Mechanic street.

27. In reference to section 5, of the street commissioner's report, relating to the alley newly opened between Chicago and Baker streets, from Fairfield avenue to Kansas street, being too low to prevent the same to be used; we therefore recommend the proper resolution to be passed to grade said alley at the property owners' expense.

We ask that the committe be instructed to place said matter before the county board at the very first opportunity, and if they refuse to act, that the aid of the court be invoked. In the meantime we recommend that the street commissioner be instructed to protect the public from injury by barricading said bridge, if necessary.

REPORT OF CITY CIVIL ENGINEER.

I, your city civil engineer, to whom was referred section 1, of the street commissioner's report, will report that I have examined the cobble stone gutter on the west side of Wells street, opposite Second street, as set forth in said section 1, of the street commissioner's report, and find that the gutters are laid from ten to twelve inches below the crown of the street center, which is as low as the gutter should be, except at the upper end, which raises too abrupt in the last twenty feet, and can be lowered without affecting the balance of the gutter, the expense of which will not exceed $5. But this will only be temporary improvement, for in cleaning the gutters that are unimproved they will be gradually lowered until the bottom is below the grade line of the improved gutter, which will again form a basin and the water collects and cause the same trouble. It is poor policy and worse economy, to improve gutters in patches, as has been done on Wells street.
